Lite Paper

# Introduction

Launched in November 2021, Grumpy Puppy is a meme coin that focuses on sharing NFTs with the world. Grumpy puppy is a play on name of all the dog-like coins in the cryptocurrency space while bringing the NFT world.

Through learnings of their own, the team at Grumpy Puppy Kennel Club have learned that the life of an NFT artist is a difficult journey and not the same for everyone. After hearing about many of the stories of artists at their beginnings all around the world, it became very clear that a community needed to be established to create a support mechanism for those early in their NFT journeys, artists and collectors alike.

Realizing these difficulties and wanting to support fellow artists, Grumpy Puppy was born.

Grumpy Puppy was designed to focus on supporting NFT Artists, sharing the arts with communities, and ultimately creating digital and real-world interactive spaces where NFTs, music, and collaborations converge.

## Vision

Grumpy Puppy's vision is to create environments that will become the new place for cryptocurrency holders and NFT collectors alike. We plan to build spaces that can display this digital age of new art and bring it into physical form for those unaware of the NFT space. In connection with these different spaces, we must add the social and collaborative aspect as well. More to come on that topic.....
